Cambridge Canvas Centre Limited has developed and patented this unique banner on a roll product for the sign and graphics industry that we sell nation-wide through sign making suppliers and equipment distributors.

What makes Bandanna Banner so unique?
We have automated our hemming system to accurately measure 1-inch hems and then simultaneously thermo-weld seams along top & bottom lengths without sewing. Then our automatic grommet system accurately measures, punches, and sets 2 grommets, spaced 3 inches apart o/c every 24 inches along top & bottom lengths with pin-point accuracy. Each roll is then rolled on a tube and professionally boxed in standard 24 yard rolls or special 12 yard roll. Standard widths of 22, 34 and 46 inches.

Bandanna Banner
Typical Performance Properties

Weight: 14oz +/- 1oz / per sq. yd.

Width: 22, 34 & 46 Inches

Roll Size: 12 & 24 Yds / Roll

Embossing: Polished

Base Fabric: 9x9 500 D Poly

FLAME PROPERTIES	WARP	FILL
Flame Resistance (5903)		
After Flame	2 Seconds	2 Seconds
Char Length	3.5 Inches	3.5 Inches
NFPA 701 (s)	Pass	

Lay-flat characteristics make it Fast & Easy when applying your vinyl graphics. Simply roll out the banner material in multiples of 2 feet, then cut between our patented Double-Grommet spacing, this will allow you to conveniently cut off the length required and have a grommet both at the ends of your first banner and the start of your second banner off the roll.
