

NEENAH

greenlight® II plus! wide format

Backlit Signage Material

GreenLight® II Plus! is a bright white, true-coated two-sided (C2S) backlit poster media that provides uniform translucency and image definition in both frontlit or backlit poster applications.

This poster media incorporates 10% post-consumer waste to achieve maximum sustainability without sacrificing the critical print and display properties required in either POP or backlit shelter poster applications.

GreenLight® II Plus! is designed to provide uniform translucency as well as superior dimensional stability and resistance to moisture warping or wrinkling due to climatic changes that often affect medias.

Light up your displays with **GreenLight® II Plus!**

APPLICATIONS:

- Bus shelters
- Mall kiosks
- Backlit displays
- Frontlit displays
- Retail signage
- Inside transit signs
- Scrolling light boxes
- Movie posters

PRINTABILITY

- Solvent
- Latex
- UV
- Offset / Screen

We all know paper prints better than plastic!

It's also more widely recycled. Our paper-based portfolio provides a sustainable option, with many post-consumer options available as well.
