ULTRABOARD™

EDGE BAND

Deliver added depth to all of your mounting applications with this Peel N' Stick mounting board with durable edge banded finish. Featuring high-tack acrylic adhesive pre-coating on one side, these boards are available in 10 pre-cut sizes. Undercut by 1/8" to facilitate final trimming for perfect edge-to-edge facing mounted prints. Four pre-drilled holes are located in the back of the board to provide for easy installation or hanging.

UltraBoard Edge Band Specifications

Thickness	3/4", 1-1/2", Custom Sizes
Size	8" X 8", 8" X 10", 8" X 12", 10" X 10", 11" X 14", 16" X 20", 16" X 24", 20" X 20", 20" X 24", 24" X 36", 30" X 40", Custom Sizes
Color	Black Band, White Band
Durability	10 Years
Price	\$\$\$\$
Application	Interior

Dimensional Material Tolerances

Length & Width	+ - 1/16"
Diagonal Squareness	[1/8"]
Straightness	[1/16"] Linear Adjacent Corner
Thickness	+ - 0.030"

OUR PRODUCTS

The industry favorite. Our most popular and versatile substrate featuring a styrene foam core and facers.

Priced to beat competitors. One of the most cost-effective foam core substrates available on the market.

Ideal for digital prints with a styrene foam core faced on both sides by ultra white poly coated Kraft paper.

The most rigid foam core panel available. An excellent alternative to cheaper materials like plywood.

The show-stopper of foam core mounting boards used for art, print and photographic mount applications.

3/16" foam with 12 pt. white clay coated papers. Cost-effective and ideal for temporary applications.

Gallery-ready mount board featuring a high-tack acrylic adhesive pre-coating on one side and a black or white edge banded finish.

Utilized by commercial development labs for its very smooth .030" thick styrene liners with Peel N' Stick high tack adhesive on one side.

Features a heavy and dense styrene foam core between 18 pt. polyethylene coated paper liners with Peel N' Stick high tack adhesive on one side.

Polystyrene core faced on both sides by smooth clay coated paper with Peel N' Stick high tack adhesive on one side.

A lightweight, cost effective and easily crafted alternative providing the same impact and appeal as metal with the advantages of foam.
