

GreenleafLED
CHANNEL LETTER MODULES

GreenleafLED channel letter solutions bring you LED options for all channel letter applications. Expand your creative options with wide beam angles and multiple mounting options, all in an attractive package.

BRILLIANT

Brilliant modules are bright and energy efficient, allowing you to use fewer modules and power supplies for each job. Designed for cans as shallow as 3", the 160° angle allow for even light dispersal without hot spots. Available in white (10,000K), red, green, and blue.

PRIMO

Available in 6,500K and 7,200K, Primo modules are a constant current **upgrade**. Fully stretched to 1.5 modules/foot, Primo modules contain a unique cable containment feature for tighter installations.

	Brilliant	Primo
Beam angle	160	160
Modules/ft (m)	1.75 (5.7)	1.5 (5)
Optimal can depth	3-5"	3-5"
Power per module	1.08W	1.08W
Lumens per module	110	110
Lm/W	102	102
60W loading	50 modules, 28'9"	32'9"
Power	Constant Voltage	Constant Current

Density Guidelines		
Depth	Coverage Single row (channel)	Coverage multiple rows
3"	7.75"	6" on center
4"	12"	7.75" on center
5"	14"	10" on center
