Admiral

## EDGE-*Tex*

Expanding possibilities in the  
Visual Communications Market

## Tape

## Silicone Edge Graphics Without Sewing

**EDGE-*Tex* Tape from Admiral Tapes allows you to jump into the growing SEG market without investing in industrial sewing equipment. Easily applied by hand, the special adhesive forms a strong bond with reduced stretch, making it easier to install.**

- For use in flexible tension media frames
- Single sided edging strip to lock printed fabrics into the channel of aluminium frames
- Works well with latex, UV, and dye-sublimated prints
- No need to sew
- Quick & easy to apply
- Industry standard 14 × 3mm size
- 82' Long rolls
- S&F Part Number: LYETEX

### Installation Guide:

- 1) Cut media to match frame, leaving 1" margin.
- 2) Cut EDGE-*Tex* to a bit less than ½" shorter than the frame width.
- 3) Apply EDGE-*Tex* to rear of fabric, and reposition as needed.
- 4) Cut excess corner material.
- 5) Using a roller, press EDGE-*Tex* firmly to ensure a permanent bond.
- 6) Fold the fabric over EDGE-*Tex*, and insert into frame.
