

## HOW TO USE GHOST-OFF

**Ghost-Off** is a safe, ready to use product designed to quickly restore weathered surfaces by easily removing oxidation. It is best used for fleet restoration, significantly reducing the “Ghost” images remaining after the removal of cut lettering. All around excellent cleaning solution, although not designed for use as a regular wash.

## STEPS

1. Thoroughly drench dry surface by spraying product. Works best on cool wet surface.
2. Allow 1 minute of dwell time. Agitate with a soft brush or sponge. Product may dry quickly when used in hot or dry weather! Re-soak as needed.
3. Wash off. Rinse thoroughly!
4. Reapply if needed. Ghost-Off is not intended as a weekly wash.
5. May be used as a surface prep before applying graphics or repainting.
